

ADVANCED TECHNOLOGY MAKING THE BEST TEATSCRUBBER ON THE MARKET EVEN BETTER.

The FutureCow Teatscrubber washes, stimulates, disinfects, and dries teats all in one easy step. Now this superior teatscrubber has even more advanced technology with a Direct Drive unit, a completely sealed and integrated system. With this technology any dairy producer who wants a teatscrubber can now have a FutureCow Teatscrubber without any delays or downsides.

WHAT IS INCLUDED

Our state of the art system includes 3 components:

- FutureCow control box
- Scrubber brush unit
- Disinfectant

DIRECT DRIVE PROGRAM DETAILS:

We are so confident your operation will benefit from this advanced technology that we've backed it up with our Direct Drive Program so you can purchase with confidence. Direct Drive teatscrubbers are designed to last 200,000 maintenance free-milkings, with only brush changes required. Contact your local FutureCow dealer to learn more.

THE FUTURECOW® DIRECT DRIVE UNIT- THE FIRST OF ITS KIND.

- **No drive shaft or casing to hinder scrubber movement.**
- **No gears to change.**
- **No triggers to replace.**
- **No tools required for brush changes.**
